

7 characteristics of Living Things

- 40 point assignment
- Follow the requirements below to earn best grade possible
- Choose 1 organism to focus the assignment around - i.e. sunflower, baby, mushroom, paramecium, leopard, E.coli bacteria.

Graded on these requirements

- ❖ Prominent Title (centered) **4 points**
 - ❖ Labels for all pictures which includes correct spelling **7 points**
 - ❖ Scientific name for organism (Genus and Species) **5 points**
 - ❖ 4 Needs of ALL living things **8 points**
 - ❖ 3 Can do's of ALL living things **6 points**
 - ❖ Organization (Different colored arrows for Needs and Can do's) **3 points**
 - ❖ Neatness of drawing/coloring pictures **3 points**
 - ❖ Extra effort or pizzazz **2 points**
 - ❖ Name on back in easy to find (prominent) place **2 points**
- Students must pick 1 species to center entire drawing around. Below drawing of their living thing they must write Scientific name of organism (Genus & Species).
 - They should pick one from their 5 for 5 Worksheet. They should choose one they have already researched the taxonomy because then there is no more research to do.
 - If they can't find sheet or don't have one they can pick from a few I have listed at bottom of this sheet.

Plants

Sunflower - *Helianthus annuus*
