## ***Elemental Box Project Rubric***

**The Skinny:** Categories are worth 20 points. Below each category are a few questions to help guide as you create this box. It would be impossible to list all questions that could be thought of. Instead of worrying about this or that question, just work to create a project you are Proud of! That's it- plain and simple. Create a project you will feed good about and know that you are displaying your best.

Without further ado – here are categories and brief descriptions.
